

The solenoid valves directly controlled are suitable for assembling on multiple or single bases; they have a low consumption of energy and have a small monostable control for an eventual manual intervention.

L'électropilote à commande directe est particulièrement indiqué pour des montages sur embase multiple ou simple. Il a une faible consommation d'énergie et a une commande manuelle pour des éventuelles interventions.

Gli elettropiloti a comando diretto sono particolarmente indicati per montaggio su basi multiple oppure su basi singole, permettono un basso assorbimento di energia ed hanno un piccolo comando monostabile per intervento manuale.
